

'Real' reasons Ponte Vista should be R-1

Supporters of R-1 at Ponte Vista have attached ourselves to positions like "It's a traffic nightmare" and "Bisno bought the property as R-1; that's all he should develop." The public's not buying. They are smarter than we thought.

We should support R-1 for the real reasons.

Our community does not need to be worried about seniors and certainly we don't have to house them!

Bisno is a pimp for seniors. It's not like they are going to stay a long time. It's unnecessary to provide housing for octogenarians.

Working families -- there's no need for them in our backyard! There are plenty of places where working families can live: Banning, the Inland Empire, Simi Valley.

Our property values are high. Making Bisno build R-1 will make them higher.

Longshoremen, police, firefighters and teachers want to live near where they work. Who cares? We are more interested in not spending another 30 seconds on Western Avenue than we are in letting anyone else move here.

I don't care about the local economy; I'm set!

Bisno says the economy will grow by \$100 million through Ponte Vista resident's purchases. Who cares? I have a job, so does my wife.

I'm not worried about some merchant I don't know. Los Angeles' budget is their problem, not mine.

Join me on the front lines in opposing Ponte Vista so we can keep our community like it is.

Seniors, working families and economic growth don't matter to me; they shouldn't to you!
