

Eastview shouldn't forget Bisno's offer

I am very disappointed to read Jennifer McDonald's letter regarding the loss of fields for Eastview Little League. ("Developments are a threat to the future," *More San Pedro*, April 7)

Has the community forgotten that Eastview was offered 6 acres of land that would have included four state of the art baseball fields at the Ponte Vista site FOR FREE?

And yes, Eastview families were asked to lend support to the Ponte Vista development because otherwise, if the property remains R-1, there would be no opportunity for ball fields.

Why didn't concerned residents like Jennifer encourage Eastview to continue their 45-year tradition on the Ponte Vista site?

Unfortunately, Eastview has decided to not take advantage of this approximately \$12 million gift and now my grandchildren, as well as hundreds of our community children, might not have fields to play ball next season.

Developments like Ponte Vista are in no shape or form "gobbling up land and threatening the future for all families.

Instead, developers like Bob Bisno are recycling blighted properties that are an eyesore. This community has to start compromising and working together to come up with good solutions.

Our children cannot afford for us to just dig in our heels. Time is running out.
