

If your goal is to cram as many people into one area, then perhaps you should consider creating RESTNG SPACES instead of LIVING SPACES. Donate that property to Green Hills. That way you won't have to worry about gridlock or congestion on Western Avenue and PV Drive North.

Please put YOURSELF in our SPOT. You move into your own creation that's Ponte Vista. And you travel every morning and afternoon during rush hour. Don't wait, try it now. It's bad enough now and you WANT to make it WORSE.

Your postcard doesn't even mention how you WILL MITIGATE traffic directly on Western Avenue. One-way in, one-way out-correct?

How is fixing the on/off ramps on the freeways going to lessen the traffic on Western Avenue? We in San Pedro are idiots. Please explain. I don't understand. The freeways don't go this far into this neighborhood. No direct on/off ramp going into and out of Ponte Vista is there?

R-1 is the way to stay!
