

Ponte Vista – Bait and Switch?

Many of the Ponte Vista “supporters” have been heard in the news lately touting the supposed benefits the Ponte Vista project will bring to our community. They sound like they were written by the Bisno Development marketing department and they keep trotting out the same old arguments and promises (and have been since the get go) with the caveat that that when it comes to developing this project, it's Bob's way or the highway.

How many groups and individuals have had a carrot dangled in front of them with a promise or agreement only to have it yanked away when his conditions aren't met. All in a effort to sell our community a bill of goods we don't need or want.

You only need to look at his former project at Lincoln Place to see how far his promises are met or kept. Fool us once, shame on you. Fool us twice, well that 's not going to happen with Ponte Vista.
