

Residents prove they care

Applause to all those who took time out of their busy schedules to show their opposition to the 1,950 units Bob Bisno would like to build at Ponte Vista. Their presence at the Planning Department's hearing last week made an impact! There were at least the same number of people in attendance opposing the project as there were those for Ponte Vista.

These people came from throughout the Harbor Area because they care about their community and not because Bisno has made a contribution to their organization or cause. They didn't come because Bob Bisno has made them a promise he may not keep.
