The sound of Bisno blinking?

Bisno's apparently offering a "project revision" next month ([Breeze Story](#)). No real details, but it obviously involves a reduced number of units. I don't want Bisno building anything in my community, but it will be interesting to see who bends over to accept the proposal that he's probably wanted the whole time - I don't think any of us are naive enough to believe that he ever really intended to build 2,300 units.
