

"Waronek doesn't listen"

Mayor Waronek has heard from my husband, my neighbors and me about why Ponte Vista impacts our neighborhood...TRAFFIC!!! Despite several face to face meetings, he continues to say he doesn't understand why this project has an impact on cities outside of San Pedro. If that's the case, then why did he represent Ponte Vista at the Torrance, Manhattan Beach, and South Bay Latino Chambers of Commerce? Why did he invite the Lomita Chamber of Commerce to a presentation put on by Bob Bisno about the potential economic benefits for Lomita businesses? Mayor Waronek seems to clearly understand the impact of this project. So why doesn't he just admit it? I would have more respect for him if he just said he had a different opinion than mine instead of saying he doesn't understand why I and my neighbors are so upset.
