

Well, we have known all along that Bob Bisno was not going to listen to any counsel, but his own actions, his proposals and his June 28th letter only go to prove that point over and over.

He can care less what we need (as if he knew) and what his grandiose plan will cost our communities in the continuing loss of our quality of life.

I certainly agree with anonymous in the previous post. He hit the nail (or nails) right on the head.

It will remain for us to continue to oppose whatever Bob Bisno tries to push down our throats. I, for one, am not willing to sit idly by (nor have I been) and watch Bisno Development steamroll over us and laugh all the way to the bank.

If you have not signed the petition, do so now. If you have not called or emailed Janice Hahn about supporting R-1 zoning at Ponte Vista, do so now. You can also go to www.rneighborhoodsare1.org/2.html to download or print petition forms. Get your neighbors, family and friends to sign them. They will be used now to show support for current zoning, as well as through the planning process that ultimately will land in the city council's lap.

Rip a page out of the Broadcast News movie script and say. "We're mad as hell and we're not going to take it anymore."

It's time to push back and let Bob Bisno and the city government know that when it comes to over the top development like this, we've had enough already.

John Stinson
