

Zev: Modify the Density Bonus Law

By David Lowell-Staff Writer

County Zev Yaroslavsky continued his crusade against the density bonus law ... SB 1818 ... which he says provides relief for builders on projects that include “a modicum of affordable housing units.”

The State Legislature passed SB 1818 several years ago. It required local governments to provide a local law implementing the State law in their jurisdiction. That support motion will come before the LA City Council, Yaroslavsky says, in “the next several weeks.”

The Supervisor wants the SB 1818 modified “to protect the quality of life in our neighborhoods.” He has taken his case directly to the Mayor. ([Read the Supervisor’s letter to Mayor Villaraigosa here.](#))
